

## Find five similarities

Compete about who is the fastest at finding five things you have in common.

- Plan time and place
- Divide the class randomly into groups of five
- The task for each group is to find five things that everyone in the group has in common
- This might be "we have all been to Germany" or we all watch "Ru Paul's Drag Race". The only condition is that it cannot have anything to do with school.
- The winning group is the first group to find five similarities
- End by all groups telling what similarities they have come up with
