

Who is "the murderer"?

Together, you must find out who is the murderer killing students in bulk.

- Plan time and date
- Sit in a large circle, so you can see each other
- Everyone gets a small note. A single note has an X on it. The person who gets this note, is the murderer. It has to be kept secret who the murderer is.
- The murderers job is to "kill the others". This is done by the murderer by blinking with one eye to one of the other students. When you die, you collapse on the floor.
- The rest of the group now has to figure out who the murderer is. If you have a suspicion, you say "I accuse XX." Another then has to say "I support". If the accuser is right, the murderer dies, and a new one is chosen. If the accuser is wrong, the accuser and the supporter dies.
- The hunt ends when the murderer has been found or when all the others are dead.
- In stead of notes you may also use a regular deck of cards. You then choose for example that the one who draws The King of Hearts is the murderer.
